IWA Magazine Article March 2021

As I sit here writing this article I am once again reminded that the next Disaster is never far away. Currently Queensland and New South Wales are receiving record rain, with floods impacting on many families and businesses who are still recovering from bush fires and COVID-19 restrictions.

It has been a very unusual and challenging year with social distancing and self-isolation, but this has certainly taught us the importance of a loving community and our basic need to be surrounded by family and friends. The idea of every person for themselves has been replaced by a collective sense of responsibility and the rapid change in our lives has allowed us to rethink our attitudes and has given us the opportunity to clarify the big issues which Inner Wheel Australia is facing.

I was so sorry the Wangaratta Conference Committee were unable to host the planned 2020 Conference after so much preparation, but I know that we will certainly "Have Fun in 2021" with Patti Stafford at the helm. Thanks to some very clever people we were able to host the Annual General Meeting by Zoom allowing us to meet our Incorporation compliance requirements. An extra meeting of the Governing Body was requested by the Council Members and it was held February, by Zoom. The Governing Body found it helpful, and I hope this practice will continue in future years, allowing for more involvement by the members through the Council Members and enhancing the transparency of our governance.

Congratulations to all who have participated in "Sean's Two for Ten" walk so far and I know there are still many who have not held their functions to support this new fundraising idea for Cord Blood Research proposed by Dallice and her Committee.

Unfortunately, due to personal circumstances, Susan Chisholm has withdrawn her nomination for Vice Chairman, and we are waiting until after April 1 for Vice Chairman nominations to close. The announcement of the successful applicants for the positions of Treasurer and Vice Chairman will be announced after the April meeting of the IWA Executive.

Unfortunately, due to COVID-19, I have been unable to realise my dream of visiting every District throughout Australia and although I have held a Zoom meeting to DA76 and sent a video to DA40 it will never be the same as meeting the members in person and being able to discuss issues which arise through the year. The Districts I have been able to visit have welcomed me with open arms and I have been overwhelmed by the generosity and the love and friendship extended to me. I know that the next six visits including a visit to IWC Wyong, will be just as fantastic.

I would like to acknowledge the difficulties that Clubs and Districts are having in filling positions this year but as we emerge from the shadow of the pandemic, I am hopeful this issue may be addressed by new enthusiasm born out of the isolation which has kept so many of us apart.

Thank you to the Executive Committee and the Appointed Officers for their support during these atypical times.

With love and in Friendship *Elizabeth*

# Cord Blood Research

In my last message to you all I wrote about reaching the 3 million mark in grants. This time it's about another success. Although at this stage we don't know the final figure, it's all looking promising that we will reach our target of \$30,000 for our Cord Blood Research project, 'Sean's two for Ten'. So well done again!

While the last few months have been unbelievably busy, and often stressful, it was also quite exciting. The excitement came from all the positive feedback from so many of you wonderful members, knowing you supported the concept, hearing about your plans, reading your reports, the newspaper articles and then of course, reading the results as they were coming in. All great news.

As with any new idea, there are things that didn't go as expected but I have no doubt that these will be addressed during the next few months. Using social media came with its challenges and will be seen, in the future to be one of the most progressive and positive steps we have taken. This was a bold new move and not everyone's 'cup of tea' but there were always other options.

In the meantime, we can all focus on the positives. I have a great team. Julie Brzowski and Melissa Freeman did everything they could to make the project work. It was not always easy but I know that's the case when dealing with a new concept. We had wonderful ambassadors. Their videos created so much interest and were very supportive. Our little survivor and campaign champion, Sean was certainly at the forefront. Then there were the Cord Blood Coordinators with some achieving amazing results. The results from Club Coordinators and their club members were mixed and varied and in one case, extraordinary. The newspaper articles, the photos and all the Facebook posts certainly contributed and were a great result of everyone's hard work.

I can't thank you all enough for the work and effort put in to make this event the success it was. I am humbled by your commitment to the project.

I also need to mention there have been other very successful events going on, all raising funds for Cord Blood Research. I am confident we will, at the end of the Inner Wheel Australia year have a very healthy annual result.

Finally, I feel the need to mention my own two daughters, Leesa & Belinda, though not Inner Wheel members, they astonished me with their individual support.

And in between the amazing and awful, it's ordinary, mundane and routine,

Breath in the amazing, hold on through the awful and relax, and exhale during the ordinary,

That's just living, heartbreaking, soul-healing, amazing, awful, ordinary life,

And it's breathtakingly beautiful." (Anon.)

## A Week (or Fortnight) in the Life of a Volunteer Fire Fighter

By Vicky Carter (Inner Wheel Club of Cowan at Sunset)

On Monday 1st February 2021, at the start of a totally crazy week due to a COVID five day lock down in WA, there was the start of a massive tree, grass, shrub fire in Wooroloo. At this time, I was just sitting on my couch watching Netflix, with the Fire Dept command and control radio on in the background.

I hear that there is something going on in Wooroloo as the amount of radio traffic increases with all these vehicles turning out to Wooroloo control. As a volunteer firefighter, I have the option to attend or not, so I said yes. By saying yes, it means that I am now committed to a 12 hour shift from leaving the brigade gates to returning. I get dressed and go to my station, which is in Forrestfield, a good 30 minutes away. At this time, I can tell you that I am listening to very loud music in my car just to block out the pulse of adrenaline that is buzzing around my head. I set the cruise control in my car and drive and while driving to station I'm assigned a vehicle... a light tanker, great!. Fire trucks always travel in pairs, so I was in the 4wd behind the big vehicle. When you get to station you get your gear together, make sure you have water, radios and then take off.

We got to the fire ground and we were tasked a sector to work on... then the rest is really history as the fire went for weeks!!! I did three shifts with my brigade at Wooroloo in the first week and several other jobs during my "lockdown" time, all while wearing a face mask. The fire was finally controlled and contained later that week, as we had a weather change from hot and dry east winds, to cold and raining by that weekend. There were 86 homes lost, a fair amount of property damage and even now there is still work to be done behind the scenes looking after the families that have lost everything, to the animals/pets and wildlife that need a Vet's attention.

I am passionate about this role helping to provide a vital service to the community.

# Margarette Golding Award

IWC Northern Beaches had no hesitation in nominating Vivienne Anderson for the prestigious Margarette Golding Award as over many years she has been involved with a variety of charities and organisations, with many groups within her community benefiting greatly from her dedication and her generous nature and spirit.

Vivienne has been a much-loved member of Inner Wheel since 1981, serving in all Executive positions including IWA President and IIW Board Director as well as holding positions within her own club.

Vivienne has used her wonderful talent in quilt making to provide quilts for families following natural disasters, such as bush fires, as well as for Bear Cottage, a children's hospice, and Stuart House, which provides residential care for children from rural areas when in need. She has also created cushions for dementia patients and sensory snakes for children with intellectual disabilities.

Many other areas of need have benefited greatly from Vivienne's generous commitment to her community, including Dalwood Homes (which assists families in need), Balmoral Beach Surf Club and the Hope for Children's Foundation.

Secondly, our morning teas at the end of the month have been a breath of fresh air in a panoramic setting on the Hopkins River. The cherry on top of the cake was seeing our beautiful friend and member Marg Hutson "cancer free" after a year of treatment/surgery and not having seen her due to COVID.

## INNER WHEEL AUSTRALIA CONFERENCE 2021

### "LET'S HAVE FUN IN '21"

Barring unforeseen circumstances once again disrupting our plans, we are asking you to

### "SAVE THE DATE"

for the 52nd Inner Wheel Australia Annual Conference to be held in the beautiful, rural city of Wangaratta from the 13<sup>th</sup> to 17<sup>th</sup> October, 2021.

Our plans from last year, although needing some tweaking, are in hand. Due to the current COVID restrictions our numbers, at this time, are still restricted so the early birds will get the seats. We are hopeful, however, that the Victorian Government will amend these rules by the time our Conference comes around and our numbers will then be higher. (It's a shame it's not a football match!!)

The committee will be meeting shortly to finalise the programme which will then be sent to the printer which means they should be available to members by May.

All members of A61 are looking forward to welcoming you to Wangaratta and are promising to make this a Conference well worth attending.

Five members attended NG Central School's Presentation Day and we'd again donated gifts for the teenage students. Morning teas are popular, whether at a home or a local café. Several members enjoyed Inner Wheel Day celebrations with other local I.W. clubs. Members didn't commit to "Sean's Walk" but held a fundraising morning tea in lieu.

## SCONE

Chartered 12.5.72

President: Ros Pinfold

In this new world where we have been unable to fundraise our club, under the initiative of our President Ros, has come up with a community service that can be done in small groups. Our local Red Cross have been inundated with donations of clothes. Much of this is only suitable as salvage to be sold for cloths for cleaning etc. However, before being sold the articles must be cut into "tea towel" size pieces with no seams, buttons, tags etc Taking it in turns to host a "cutting" session in our homes, we take a couple of large bags and in groups of four we work through the bags salvaging the suitable parts for the Red Cross to bag and sell. This has proven to be a very worthwhile activity as we are connecting socially in small groups and are also providing a worthwhile and much appreciated service to our community. And it is fun!

## WYONG
